

SRVC HOCKEY CAMP SAFETY & HEALTH PROTOCOLS

CONCUSSION PROTOCOL

SRVC Hockey Camp prioritizes player safety and follows recognized concussion management practices.

1. Recognition

Camp staff will monitor participants for signs and symptoms of concussion including:

- headache
- dizziness or balance issues
- confusion or difficulty concentrating
- nausea or vomiting
- sensitivity to light or noise
- loss of consciousness
- unusual behavior or slowed response

2. Immediate Removal

Any player suspected of sustaining a concussion will be immediately removed from participation.

The participant will not return to the ice or training activities the same day.

3. Parent Notification

Parents or guardians will be notified immediately if a concussion is suspected.

4. Medical Evaluation

Participants must be evaluated by a qualified medical professional.

5. Return to Play

A participant may only return to camp activities after providing written medical clearance from a licensed healthcare provider.

Camp staff will follow a gradual return-to-play progression if appropriate.

SEVERE WEATHER PROTOCOL

While most activities occur indoors, SRVC Hockey Camp maintains procedures for severe weather events including storms, lightning, flooding, or hazardous travel conditions.

1. Monitoring Conditions

Camp staff will monitor weather conditions using reliable local weather alerts and facility notifications.

2. Delays or Schedule Changes

If severe weather creates unsafe travel conditions, camp sessions may be delayed, modified, or rescheduled.

3. Shelter Procedures

If severe weather occurs during camp operations:

- Participants will remain inside the rink facility.
- Staff will move participants to designated safe areas if instructed by facility management.

4. Parent Communication

Parents will be notified of schedule changes through:

- email
- text notification
- camp communication platform

5. Pickup Procedures

If early dismissal is required, parents or guardians will be notified and must pick up participants promptly.

CAMPER ILLNESS PROTOCOL

To maintain a healthy environment for all participants, the following illness procedures are enforced.

1. Illness Screening

Participants should not attend camp if they are experiencing symptoms such as:

- fever
- vomiting or diarrhea
- persistent cough
- contagious illness
- severe fatigue or weakness

2. Illness During Camp

If a participant becomes ill during camp:

- the participant will be removed from activity
- camp staff will monitor the participant in a designated rest area
- parents or guardians will be contacted immediately

3. Parent Pickup

Parents or guardians must pick up an ill participant as soon as possible.

4. Return to Camp

Participants may return once they are symptom-free and medically cleared if necessary.

5. Communicable Illness

If a participant is diagnosed with a contagious illness, parents are asked to notify camp staff so appropriate precautions can be taken.

STAFF RESPONSIBILITIES

All camp staff are responsible for:

- monitoring player safety and wellbeing
- reporting injuries or illness immediately
- following all emergency procedures
- documenting incidents when necessary

Participant safety is the highest priority of SRVC Hockey Camp.
